

# HEPA Air Purifier BCN320

REF:OLAPBCN320

## HEPA Air Purifier

Discreet design combined with any decoration.

High efficiency due to the Double H13 HEPA filters

Easy maintenance

## TECHNICAL DATA / SPECIFICATIONS

Made of stainless Steel with high resistance to corrosion and scratches

Ultraviolet type C

Titanium Dioxide Catalyst. TIO<sub>2</sub>

Ionizer

Voltage/Frequency: 230 V – 50 HZ (120 V under request)

Flow: 320 m<sup>3</sup> / h

Coverage: 25 m<sup>2</sup> >100 m<sup>2</sup> (depend area height)

Consumable: 58 W / 0,26 Amp /

Sound Level: <45 dbA

## DETAILS

The air purifiers BCN320 are proved to be good at filtering dust, smoke, and pollen from the air. Multiple studies of portable air purifiers show that using HEPA filters results in reductions of 50 percent or higher in particulate matter. HEPA filters can remove larger particles, too, including dust, pollen, and some mold spores while they're suspended in the air.

Recommended to clean and check HEPA filter every quarter and to substitute them yearly
